

Master Services Agreement

Acme Cloud, Inc. and Redwood Systems, Inc.

DOCUMENT ID	MSA-2026-01	VERSION	1.0
EFFECTIVE DATE	December 15, 2026	EXECUTION DATE	December 15, 2026

This Master Services Agreement governs access to Acme Cloud services purchased by Redwood Systems under an Order Form. Capitalized terms have the meanings stated in this Agreement or the applicable incorporated document.

MSA-1 Definitions

Agreement means this Master Services Agreement together with each executed Order Form and each schedule or statement of work incorporated by reference.

Customer Data means information submitted to the services by or for Redwood Systems. Documentation means Acme Cloud's generally available technical and usage documentation. Order Form means an ordering document signed by both parties that identifies products, quantities, fees, and the subscription term.

MSA-2 Orders and access

Acme Cloud will provide the services identified in an executed Order Form during the applicable subscription term. Redwood Systems may permit authorized users to access the services within the contracted quantities and will remain responsible for their use.

An affiliate may purchase services only by entering into its own Order Form unless the applicable Order Form expressly identifies that affiliate as an authorized recipient.

MSA-3 Fees, invoices, and taxes

Redwood Systems will pay the fees specified in each Order Form. Unless an Order Form states otherwise, undisputed invoices are due 30 days after the invoice date. Usage-based charges may be invoiced after the period in which usage occurs.

Fees exclude sales, use, value-added, withholding, and similar taxes. Redwood Systems is responsible for applicable taxes other than taxes based on Acme Cloud's net income. The parties will cooperate regarding valid exemption documentation.

MSA-4 Customer responsibilities and acceptable use

Redwood Systems is responsible for account administration, the accuracy and legality of Customer Data, and use of the services in accordance with the Documentation. Redwood Systems will not circumvent usage limits, interfere with service integrity, or provide service access to unauthorized third parties.

Acme Cloud may suspend access to address an immediate security threat or unlawful use, using reasonable efforts to provide notice and limit the suspension to the affected activity.

MSA-5 Confidentiality and security

Each recipient will protect the other party's Confidential Information using at least reasonable care and will use it only to perform or exercise rights under the Agreement. Confidential Information excludes information independently developed, lawfully received without restriction, or publicly available without breach.

Acme Cloud will maintain reasonable administrative, technical, and organizational safeguards for Customer Data. Redwood Systems remains responsible for its identity provider, endpoint security, and authorization of its administrators.

MSA-6 Warranties and disclaimers

Acme Cloud warrants that the services will materially conform to the Documentation during the subscription term and that professional services will be performed in a professional and workmanlike manner. The exclusive remedy for breach is reperformance or, if reperformance is not commercially reasonable, termination of the affected service and refund of prepaid unused fees.

Except for the express warranties in the Agreement, each party disclaims implied warranties to the maximum extent permitted by law.

MSA-7 Limitation of liability

Neither party is liable for indirect, incidental, special, consequential, or punitive damages arising from the Agreement. Except for excluded claims, each party's aggregate liability will not exceed the fees paid or payable for the affected services during the 12 months preceding the event giving rise to liability.

The limitations do not apply to payment obligations, infringement or misappropriation of the other party's intellectual property, breach of confidentiality, or liability that cannot legally be limited.

MSA-8 Term and termination

This Agreement begins on the effective date and continues while an Order Form remains in effect. Either party may terminate for a material breach that remains uncured 30 days after written notice, or immediately if the other party becomes subject to qualifying insolvency proceedings.

Termination of this Agreement terminates active Order Forms unless the parties agree otherwise. Accrued payment obligations and provisions intended by their nature to survive will survive termination.

MSA-9 Document relationship and order of precedence

An executed Order Form may state negotiated terms for a specific purchase. If documents conflict, the more specific negotiated term in the Order Form controls for that purchase, followed by the applicable statement of work or schedule for its subject matter, and then this Master Services Agreement. A later document does not modify an earlier document unless it identifies the term being modified or the conflict cannot otherwise be reconciled.

Headings are for convenience and do not affect interpretation. References to a document include its properly incorporated attachments.

MSA-10 General terms and signatures

Neither party may assign the Agreement without the other party's consent, except in connection with a merger, reorganization, or sale of substantially all relevant assets. Notices must be in writing. The Agreement is governed by the laws of the State of Delaware, without regard to conflict-of-law rules.

The Agreement is the complete agreement regarding its subject matter and may be amended only in a signed writing. Waiver of one breach is not a waiver of another. Invalid provisions will be enforced to the maximum lawful extent and the remainder will continue in effect.

Acme Cloud, Inc. /s/ Alice Chen Vice President, Sales Date: December 15, 2026	Redwood Systems, Inc. /s/ Morgan Lee Vice President, Information Technology Date: December 15, 2026
